1		<p><b>AGRICULTURE AND FOOD</b></p> <p>Agriculture comprises establishments primarily engaged in growing crops, raising animals, harvesting timber, and harvesting fish and other animals from a farm, ranch, or their natural habitats. Food establishments transform livestock and agricultural products into products for intermediate or final consumption. The industry groups are distinguished by the raw materials (generally of animal or vegetable origin) processed into food and beverage products. The food and beverage products manufactured in these establishments are typically sold to wholesalers or retailers for distribution to consumers.</p>		
1.1		<p><b>SUPPLY</b></p> <p>Facilities that supply the livestock and agricultural raw materials.</p>		
1.1.1	111	<p><b>Crop Production</b></p> <p>These facilities comprise establishments, such as farms, orchards, groves, greenhouses, and nurseries, primarily engaged in growing crops, plants, vines, or trees and their seeds.</p>
